CHANGE IN PUBLICATION ARRANGEMENTS

Beginning with Volume 62 of the JOURNAL, the Society found it necessary to change publishers. Announcement of and reasons for the change were given in Vol. 62, (2) June, 1954, p. 98.

Unfortunately, it soon became apparent that equal service to that provided by the former publishers could not be achieved. Unreasonable delays occurred, in spite of every effort on the parts of the editor and the various officers of the Society to maintain a reasonable publication schedule. The four issues of volume 62 were published over a period of more than two years. Obviously this was not fair to the subscribers nor to the Society and it became necessary finally, to again make a change in publishers.

The situation has been met by return of the Journal to the previous publishers, Business Press Inc. The entire Volume 63 is here presented in one issue. It is planned also to publish Volume 64 (1956) in one issue and, if possible, to revert back to four separate issues with the 1957 Volume, 65.

Throughout this difficult period your officers have been very much encouraged with the show of patience and understanding by the subscribers. It is the desire of the editor, other officers and Business Press to present the JOURNAL on time, just as soon as possible.

The Volume Title Page, Table of Contents and Index to the Volume were omitted from the December 1954 issue. Publication in that issue would have resulted in further delay. This volume carries Title Pages, Tables of Contents and Indices for both Volumes 62 and 63. It is hoped that this might prove satisfactory for those subscribers who desire to bind the JOURNAL.
